Environmental & Sustainability Policy

Ideal Medical Solutions Limited recognise that our business has an important role to play in protecting and enhancing the environment for future generations. Ideal Medical Solutions is committed to leading the industry in monitoring and improving its environmental performance minimising the impact of its activities on the environment.

Throughout our business we are committed to

Ideal Medical Solutions Ltd will ensure it:

- Minimises waste by evaluating operations and ensuring they are as efficient as possible.
- Minimises toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promotes recycling both internally and amongst its customers and suppliers.
- Reviews sustainable day to day activities including usage of recycled paper/cardboard products and anything else that helps reduce our carbon footprint.
- Discourages printing and encourages keeping digital documents.
- Sources and promotes a product range to minimise the environmental impact of both production and distribution.
- Explores the options of future solar energy solutions.
- Reviews office maintenance and ensures lighting and equipment uses the least resource possible.
- Remains in compliance with all relevant environmental legislation that relates to the Company.
- Provides all employees with the training and resources required to meet our objectives.

This policy will be reviewed annually.

In addition to this policy, we have published our baseline carbon emissions for 2023 which will be reviewed and updated annually as we work towards net zero greenhouse gas emissions by 2050.
